A member of staff will greet you on arrival at the farm. At this point we will explain to you the structure and order of the days activities, including arrangements and facilities for lunch. If your coach is staying at the farm we recommend that you leave your picnics and personal belongings on it (not valuables). Provisions will be made for you to leave your baggage if the coach is not staying.

The morning activities include bottle feeding, a tractor and trailer ride, which includes a walk through our nature trail (the walk is weather dependant). Meeting the birds of prey, the horses and ponies as well as a visit to our pet's corner where the children can hold a selection of baby animals including rabbits, guinea pigs and chicks.

You will be designated an area in which to eat your lunch time picnic.

After lunch a member of staff will liaise with you to organise the afternoon activities, these include making a harvest book mark, duck feeding, and either a visit to the milking parlour or a talk on harvest: from field to plate. These talks can be adapted and personalised to any age of student.

Hygiene is of up most importance and you will be asked to wash your hands after activities involving contact with the animals and also at regular intervals during the day, we would ask that everyone washes their hands again before leaving the farm. There are also disinfectant dispensers in various locations around the farm, should you wish to use them.

We have excellent indoor and outdoor picnic facilities and we can provide undercover accommodation in the event of wet weather. The willow barn tea room provides hot and cold refreshments and a selection of homemade food.
