

The Walton family welcome you to...

STOCKLEY FARM Park

Open since 1987, Stockley Farm is a 750 acre organic farm growing crops and vegetables as well as milking 200 dairy cows.

Stockley Farm is also in partnership with Riverford Organic Vegetables to whom we supply organic produce all year round.

Fun activities await you down on the farm but first hop on the tractor and trailer and enjoy the ride down to the farm. Then come and meet all the animals, from cows & pigs to horses and goats they can't wait to meet you and you can even help out at feeding time and bottle feed the baby lambs and goats!

During your day make sure you visit the popular Pets Corner where our friendly staff are on hand to help you hold a baby rabbit or even a guinea pig.

Make sure you call into the Willow Barn Tearoom, open daily, serving delicious home made food and refreshments.

Whatever the weather the fantastic indoor and outdoor play areas provide fun all day long or why not pick up a quiz and enjoy a walk through the beautiful woodland nature trail.

Every afternoon watch the cows being milked from the farms very own viewing gallery. Before you hop on the tractor and trailer for your return journey take a visit to the Stockley Stores Gift Shop where you can purchase a souvenir to remember your day out at Stockley Farm Park.

Riverford on Stockley Farm brings organic, seasonal veg, fruit and meat from our Cheshire farm to your door. Order your box as and when it suits you and add to your basket from our list of fruit, veg, dairy, juices and more.

FREE DELIVERY!
